### AFFIRMED THE CASE.

Decision of the Court of Appeals in a Mason County Suit.

The following decision was rendered by the Court of Appeals in affirming the suit of Newdigate vs. Early's Administrator, taken up from this county:

First—Fraud cannot be relied on in avoidance of the statute of limitations unless it is pleaded.

Second—The fact that the payee in a note took a renewal note payable to another to avoid the laws against usury does not prevent the statute from running in his favor from the date of the last payment so as to bar after one year the recovery of usury paid, the charge of payee not having the effect intended.

Third—The fact that the payee told the obligors, who knew that they had been paying usurious interest for years, that if the last note was not all right he would correct it, does not prevent the statute from running in his favor against the recovery of usury paid, the promise having no reference to usury.

Fourth—Where the Administrator and children of a decedent paid annually the interest on a debt against the estate they cannot recover the amounts thus voluntarily paid, on the ground that no interest was due because demand was not made.

Thomas L. Given and A. E. Cole & Son were attorneys for appellants, and E. L. Worthington and A. M. J. Cochran attorneys for appellee.

### JOIN THE LEAGUE.

Tobacco Growers to Meet at Lexington Next Tuesday.

### MEMBERS URGED TO ATTEND.

The following circular has been sent out by the Secretary of the Tobacco Growers League of Kentucky:

LEXINGTON, KY., February 13th, 1899. Tobacco Growers—Dear Sir: There will be a meeting of the State League of Tobacco Growers in Lexington Tuesday, February 21st.

Trusts are being formed daily in every kind of business, and the only hope for the grower is the perfecting of our League for self-protection. We are securing new members every day, and we want you to take a deeper interest in this movement—a movement on which your future so largely depends. If we succeed—and we will with your help—we can demand and obtain good prices for our tobacco; if we fail—and we will without the help of the growers—then there is no hope for you, and your tobacco will have to go for whatever price the Trust is willing to place on it, which you may be sure will be a small one.

The only way to make a success of this League is for each and every grower to take an interest in it. If you are not already a member you should join at once and go to work to induce your friends to join. It is a duty you owe to yourself, your family and friends. When you become a member of this League you have as much power over its actions as any other man in it, and any suggestion you might make will be passed on by a vote of the League. Don't let the old thought "There will be enough without me" hold you back. There will not be enough until every grower is a member. And regarding our meeting on the 21st, don't think you will not be needed. You might have some suggestion to make that would be very valuable to the League which would probably not be thought of were you not present.

Our last state meeting was not as largely attended as it should have been. The weather is likely to be such that you can be doing nothing at home, but no matter what kind of weather we are having about the 21st you will do more good here than you possibly could by staying at home.

Trusting you will see that it is to your interest to be here on the 21st, and that you will do all you can to influence others to attend, I am, yours very truly, J. L. Liska, Secretary.

La Grippe is again epidemic. Every precaution should be taken to avoid it. Its specific cure is One Minute Cough Cure. A. J. Shepherd, Publisher Agricultural Journal and Advertiser, Eldon, Mo., says: "No one will be disappointed in using One Minute Cough Cure for La Grippe." Pleasant to take quick to act. Henry W. Ray, adjoining Postoffice.
